Rustproof Security Alarm Bell Cover

VERTICAL (C) TYPE

FIX and FORGET

This new type of security bell box will provide a permanent site for the installation of the alarm bell, having the following advantages to you and your company.

- 1 Rustproof - Cover & Backplate.
 - 2 Tough - proven thermoplastic materials.
 - 3 Lightweight - easier installation in awkward places.
 - 4 Truncated pyramid shape - to foil illegal lasso attempts.
 - 5 Fixing hole for single micro for front anti tamper.
- Available in translucent material to enable the light unit to be fitted internally along with the audible device.
 - Available in 4 standard colours U.V. stabilised to reduce fading.
 - Available in any colour to special order.
 - Available in 2 different brands to cover material.
 - Available as a dummy.
 - Bell and microswitch fixings are ready drilled or trapped.

ELIMINATE THE PROBLEMS NORMALLY ASSOCIATED WITH METAL BOXES:

- 1 Metal Corrosion.
- 2 Peeling plastic coating.
- 3 Constant replacements.
- 4 Rusty water streaks down customers walls.
- 5 High maintenance costs.
- 6 Degradation of company image associated with unsightly boxes.

You need only replace the old metal box once with our new maintenance free boxes or install it in the first place and forget.
