Battery Drill / Screwdriver ABS 6

Advantages

- Screwdriver and drill in one. When drilling in fast gear (700 rpm), the power comes directly from the motor without loss of power
- Battery packs PS 2.4 (4 Ah) and PXS 2.4 (7 Ah), for triple performance, can be used (accessories)
- Knuckle joint for reduction of overall length
- Reversible action. 6-stage adjustment of torque, slipping clutch
- Suitable for 1/4" x 25 mm to 125 mm screwdriver bits

Supplied as standard:

2.4 / 1.4 Ah battery pack, UCR charger (1 hour), carrying case

Technical data
