

### Description

- Miniature surface mount design
- Inductance range from 0.470uH to 1000uH
- Current range from 19.2 to .47 Amps
- Maximum power density
- Ideal for applications requiring low inductance and high current in a miniature package
- Modified standard products are available
- Protective case eliminates core breakage
- Meets UL 94V-0 flammability standard
- RoHS compliant (-R option)

### Applications

- DC-DC converters on board level and industrial products

### Environmental Data

- Storage temperature range: -40C to +125C
- Operating ambient temperature range: -40C to +85C (range is application specific)
- Infrared reflow temperature: +240C for 30 seconds maximum

### Packaging

- Supplied in tape and reel packaging, 900 (UP1B), 550 (UP2B), 450 (UP3B), and 275 (UP4B) per reel

 xxx = Inductance value per family chart

**Packaging Information**

UP1B Series

Parts packaged on 13" Diameter reel,  
900 parts per reel.

UP2B Series

Parts packaged on 13" Diameter reel,  
550 parts per reel.

UP3B Series

Parts packaged on 13" Diameter reel,  
450 parts per reel.

UP4B Series

Parts packaged on 13" Diameter reel,  
275 parts per reel.

This bulletin is intended to present product design solutions and technical information that will help the end user with design applications. Cooper Electronic Technologies reserves the right, without notice, to change design or construction of any products and to discontinue or limit distribution of any products. Cooper Electronic Technologies also reserves the right to change or update, without notice, any technical information contained in this bulletin. Once a product has been selected, it should be tested by the user in all possible applications.

**Life Support Policy:** Cooper Electronic Technologies does not authorize the use of any of its products for use in life support devices or systems without the express written approval of an officer of the Company. Life support systems are devices which support or sustain life, and whose failure to perform, when properly used in accordance with instructions for use provided in the labeling, can be reasonably expected to result in significant injury to the user.
