Male parts

Accessories for
ST 18/7 poles

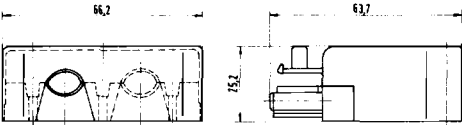

230/400 V~, 16 A

670

ST 18/7

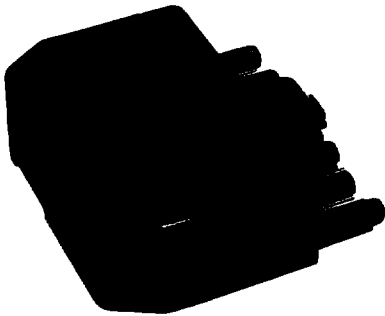

single screw connection
 strain relief for two round cables
 diameter 8.3–11.0 mm

one cable inlet: open
 one cable inlet to be cut out

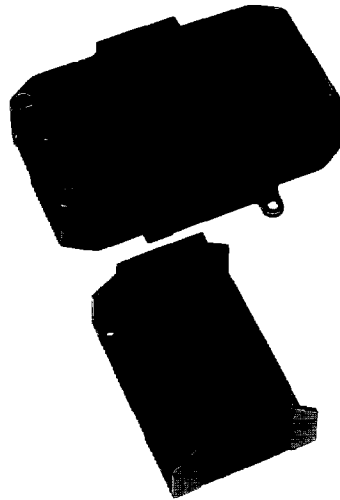

additional cover
 for female/male combination

With this additional cover ST 18/7 pole fulfills the requirements of standards VDE 0700, IEC 335, EN 60335. It makes the interlock between the male and female connector only separable with the help of a tool.
