EC Safety Data Sheet according to Directive 1907/2006

Trade name: Solder-wire KS 115 FLOWTIN ® TSC

Date of issue: 15.12.2005 Revised on: 24.05.2011

Date of print: 08.11.2011

Page: 1(3)

Date of Issue. 15.12.2005 Rev	sed on. 24.05.2011	Date of print	t: 08.11.2011	Page: 1(3
1. Name of product, characte	rization and compa	any name		
Information on the product				
Trade name: Usage of the product / preparation		Solder-wire KS 115 FLOWTIN ® TSC Solder wire for soft soldering		
• • • • •		Sit soldering		
Identification of the manufacture Address:	MULTICOMP Premi 150 Armley Road	MULTICOMP Premier Farnell plc		
Phone:		+44 (0) 870 129 8608		
Fax: Emergency call: E-mail:	+44 (0) 870 202530 (During office hours only)			
2. Possible hazards:				
Not a composition for the purposes of the I	Dangerous Substances Regula	tions, but nevertheles	s observe items 4-16	
3. Composition/Information of	on the components			
Chemical characterization: Tin-copper-si		on-metals) with flux ma	ax. 3,5 % modified resin	
(halide-activated)				
Composition according to EC 1907/	2006:			
Contents CAS No.	EINECS No. Symbo	ls R-phrases:	Substance	
remainder 7440-31-5 0,6-0,8% 7440-50-8	231-141-8 231-159-6		Tin copper	
3,6-4,0% 7440-22-4	231-131-3		silver	
<3,5%			modified resin	
The wor	ding of the R-phrases stated	is indicated in Secti	ion 16	
4. First Aid measures				
General information:	If casualty is unconscious	but breathing, place in	n the recovery position.	If breathing
	has stopped apply artificia	I resuscitation or give	oxygen by mask	
After inhalation:		Remove patient to fresh air. If irritation resists, obtain medical attention.		
After skin contact: After eye contact:	If any skin irritation develo Flush <i>immediately</i> with p			entered
	the eye seek medical atte	ntion.		
After ingestion:	Rinse mouth immediately and drink plenty of water. Seek medical advice.			
Hints for doctors.	Inhalation of the flux fumes given off at soldering temperatures will irritate the nose, throat and respiratory system. Repeated or prolonged exposure to flux fumes			
	may cause shortness of b		in god on pood o to han	
Physician's information	Decenter institut to			
Treatment:	Decontamination, tr	eatment of symptoms		
5. Fire fighting measures				
Suitable extinguishing media: Special protective equipment for fire fighting	Use extinguishing media a Wear self-contained breat skin and eyes.			ent contact with
6 Appidental relacco macqui				
6. Accidental release measur	<u>53</u>			
Pick up and place in appropriate containe	r			
7. Handling and storage				
The fumes produced during soldering sho	uld be extracted away from the	e breathing zone of the	e operators. Ensure the a	area is well
ventilated. Wash hands with soap and wa	arm water after handling, partic	cularly before eating, c	frinking or smoking.	
The product should be stored in a cool, d	ry area.			

EC Safety Data Sh	eet according to Directive	1907/2006		
Trade name: Solder-wire I				
Date of issue: 15.12.2005	Revised on: 24.05.2011	Date of print: 08.11.2011 Page: 2(3		
8. Exposure controls a	and personal protection	<u>in</u>		
Substances with limit values Danger to health at the workin Peak limit category:	tion and control of process condition to be monitored at the working place: Thes according to TRGS 900 CAS No. ml/m³ (ppm) 7440-31-5 7440-50-8 7440-22-4 h: Skin resorption	ace:) from Section 2 for Germany:		
Avoid direct contact with eyes, t				
Personal protection Respiratory protection: Hand protection: Eye protection: Personal protection:	If concentrations are over the exposure limit, use a supplied air respirator. Use heat resistant gloves if required. Operators should wear goggles Light protective clothing			
9. Physical and chemi	cal properties			
Form:	Form: Tin-Copper Solder			
Melting Point: Vapour Pressure: Density(20°C):	Colour:silver 217°C n.a. 7-8 g/cm ³			
10. Stability and react	vity			
Reaction with substances: Hazardous combustion or decomposition products:	Possible with oxidising agents none			
11. Toxicological infor	mation			
The toxicological classification of th 1999/45/EC.	e product is based on the results of	the calculation procedure of the general preparation directive		
Acute Effects:				
None toxic metal.				
12. Ecological informa	ition			
General information:	No effect to environment know	'n		
13. Disposal consideration	ations			
Disposal information Product: Further information: Waste identity number:		al waste disposal service to dispose of this material. local environmental regulations. Collect metal for recycling ode: 120104		
14. Transport informa	<u>tion</u>			
GGVSEB/ADR	The product is not classified a	s hazardous for transport		

EC Safety Data Sheet according to Directive 1907/2006

Trade name: Solder-wire KS 115 FLOWTIN ® TSC

Date of issue: 15.12.2005 Revised on: 24.05.2011

Date of print: 08.11.2011

15. Legal regulations:

Labelling information:

The product is classified and labelled according to the EC Directives. Not subject to current legislation

Organic materials class III; whole-carbon-concentration: Max. acceptable

WGK 1 (weakly water-endangering)

Tin, copper, silver, resin

Emission50 mg/m^3 (mass-flow-rate ≥ 0.5 kg/h)

Water hazard class: Classification according to the TA Luft:

Ingredients:

16. Further information

R-phrases point 3:-----

n.k.: not known

n.a.: not applicable

Other information

This statement is based on our current knowledge and offers no assurance of product properties.
