Notes:

1. Standard form factor is U-Bracket. For enclosed unit with end fan, add suffix "E"; For enclosed unit with top fan, add suffix "T"; For unit with "current share" option, add suffix "D".
2. 15 CFM forced air is required to load the U-Bracket unit up to 360W. Without forced air, U-Bracket unit can operate at 270W @ +40°C ambient maximum.
3. R&N are measured at 20 MHz bandwidth with a 10µF electrolytic capacitor and with a 0.1µF ceramic capacitor in parallel.
