

CR8PM-12B

Thyristor

Medium Power Use

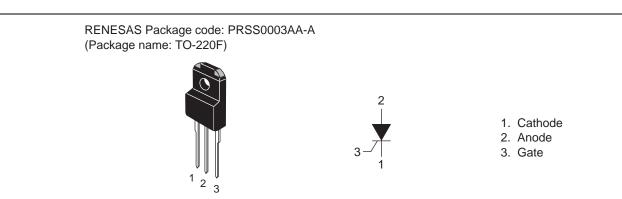

Features

- $I_{T(AV)}: 8 A$
- V_{DRM} : 600 V
- I_{GT} : 15 mA
- Viso : 2000 V

Outline

- Planar Passivation Type
- UL Recognized : Yellow Card No. E223904

Applications

Switching mode power supply, regulator for autocycle, motor control, heater control, and other general purpose control applications

Maximum Ratings

Parameter	Symbol	Voltage class	Unit	
Falanielei	Symbol	12		
Repetitive peak reverse voltage	V _{RRM}	600	V	
Non-repetitive peak reverse voltage	V _{RSM}	720	V	
DC reverse voltage	V _{R(DC)}	480	V	
Repetitive peak off-state voltage	V _{DRM}	600	V	
DC off-state voltage	V _{D(DC)}	480	V	

R07DS0117EJ0100 Rev.1.00 Sep 03, 2010

CR8PM-12B

Parameter	Symbol	Ratings	Unit	Conditions	
RMS on-state current	I _{T (RMS)}	12.6	А		
Average on-state current	I _{T (AV)}	8	A	Commercial frequency, sine half wave 180° conduction, Tc = 106°C	
Surge on-state current	I _{TSM}	120	A	60Hz sine half wave 1 full cycle, peak value, non-repetitive	
I ² t for fusing	l ² t	60	A ² s	Value corresponding to 1 cycle of hal wave 60Hz, surge on-state current	
Peak gate power dissipation	P _{GM}	5	W		
Average gate power dissipation	P _{G (AV)}	0.5	W		
Peak gate forward voltage	V _{FGM}	6	V		
Peak gate reverse voltage	V _{RGM}	10	V		
Peak gate forward current	I _{FGM}	2	А		
Junction temperature	Tj	- 40 to +150	°C		
Storage temperature	Tstg	- 40 to +150	°C		
Mass	—	2.0	g	Typical value	
Isolation voltage	Viso	2000	V	Ta = 25°C, AC 1 minute, each terminal to case	

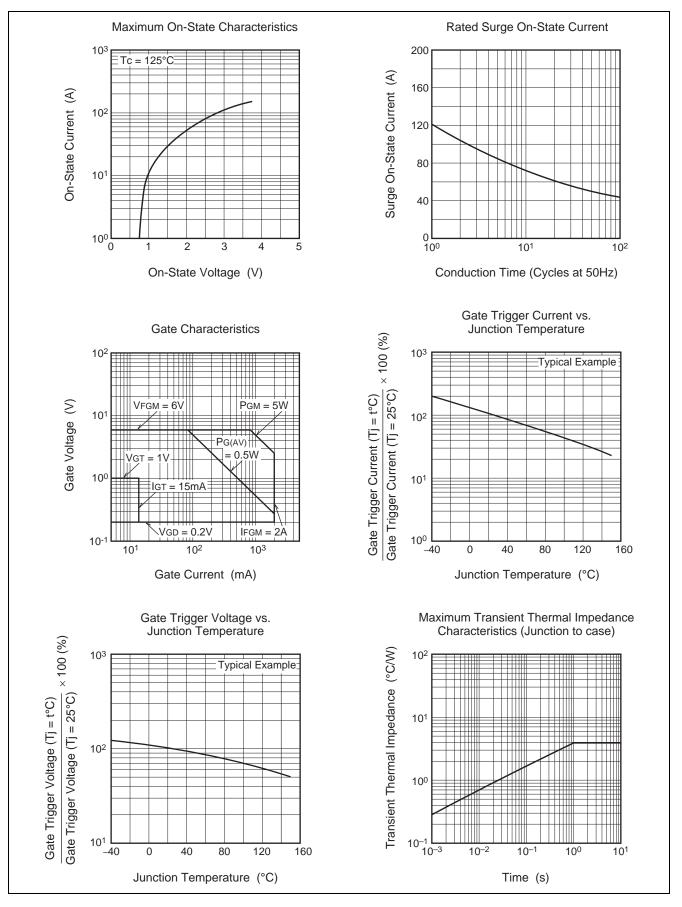

Electrical Characteristics

Parameter	Symbol	Rated value			Unit	Test conditions
	Symbol	Min.	Тур.	Max.	Unit	
Repetitive peak reverse current	I _{RRM}	-	-	2.0/5.0	mA	Tj = 125°C/150°C, V _{RRM} applied
Repetitive peak off-state current	I _{DRM}	-	-	2.0/5.0	mA	Tj = 125°C/150°C, V _{DRM} applied
On-state voltage	V _{TM}	-	-	1.4	V	$Tc = 25^{\circ}C, I_{TM} = 25 A,$
						instantaneous value
Gate trigger voltage	V_{GT}			1.0	V	$Tj = 25^{\circ}C, V_{D} = 6 V, I_{T} = 1 A$
Gate non-trigger voltage	V_{GD}	0.2/0.1		_	V	$Tj = 125^{\circ}C/150^{\circ}C, V_D = 1/2 V_{DRM}$
Gate trigger current	I _{GT}	-	_	15	mA	$Tj = 25^{\circ}C, V_{D} = 6 V, I_{T} = 1 A$
Holding current	Iн	_	15	—	mA	$Tj = 25^{\circ}C, V_{D} = 12 V$
Thermal resistance	R _{th (j-c)}		_	3.7	°C/W	Junction to case ^{Note1}

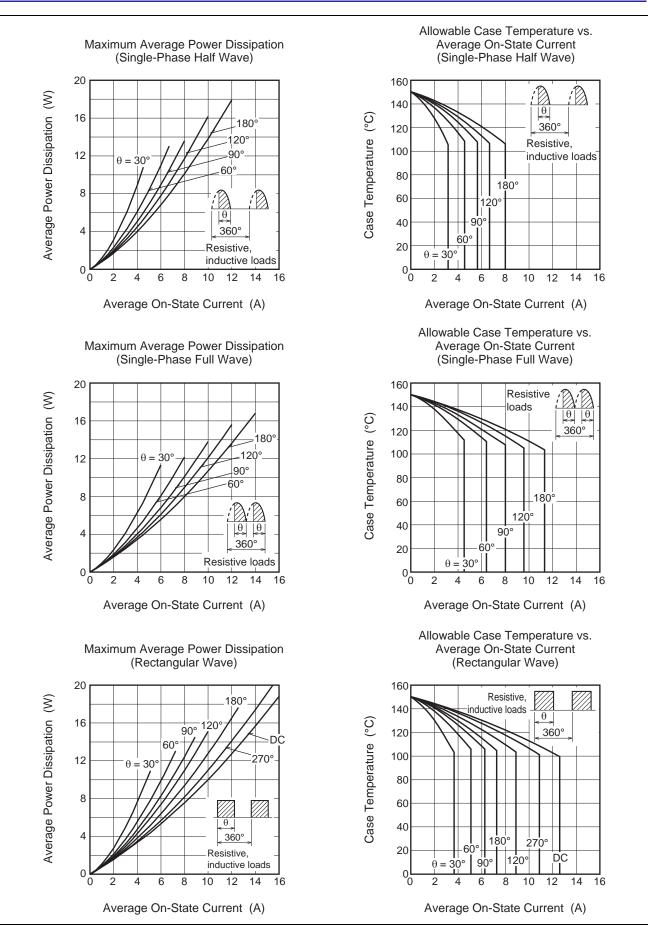

Notes: 1. The contact thermal resistance $R_{th\,(c\text{-}f)}$ in case of greasing is 0.5°C/W.

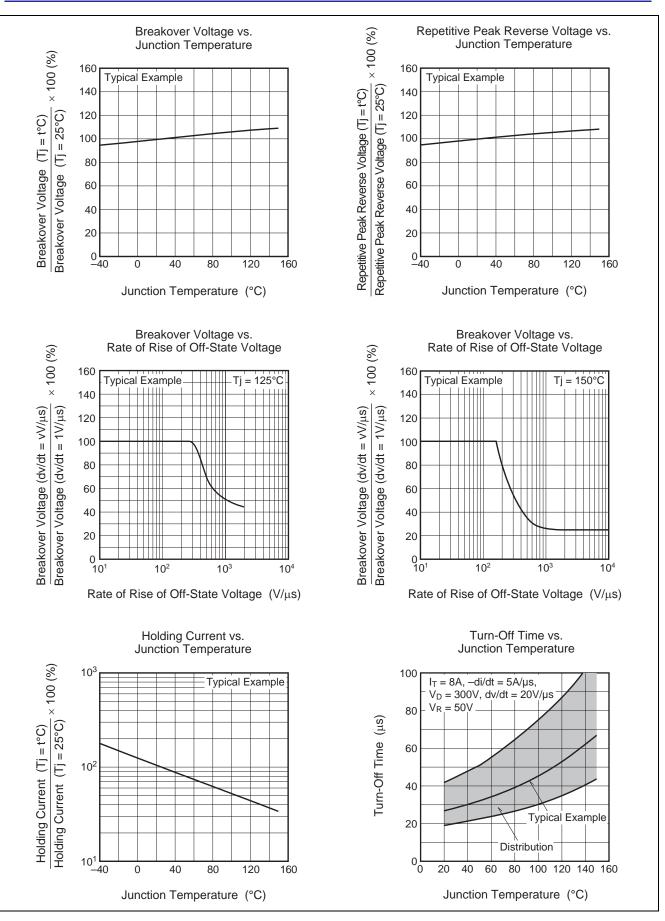

Performance Curves

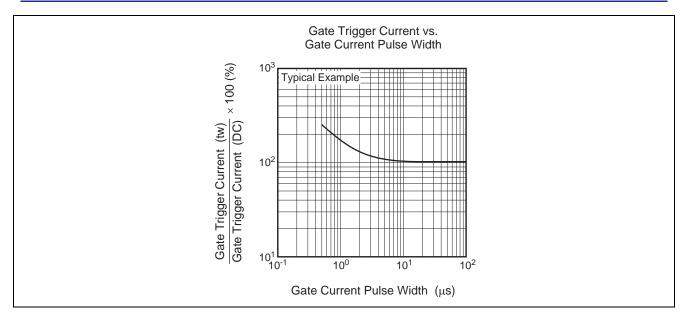

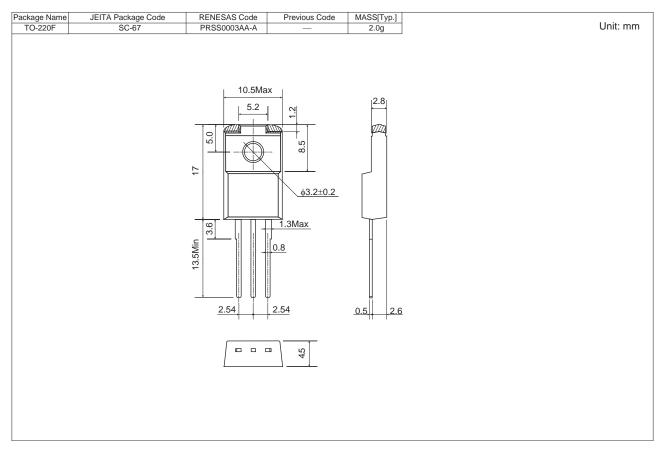

Package Dimensions

Order Code

Lead form	Standard packing	Quantity	Standard order code	Standard order code example
Straight type	Vinyl sack	100	Type name	CR8PM-12B
Lead form	Plastic Magazine (Tube)	50	Type name – Lead forming code	CR8PM-12B-A8

Note : Please confirm the specification about the shipping in detail.

Notice

- All information included in this document is current as of the date this document is issued. Such information, however, is subject to change without any prior notice. Before purchasing or using any Renesas Electronics products listed herein, please confirm the latest product information with a Renesas Electronics sales office. Also, please pay regular and careful attention to additional and different information to be disclosed by Renesas Electronics such as that disclosed through our website.
- Renesas Electronics does not assume any liability for infringement of patents, copyrights, or other intellectual property rights of third parties by or arising from the use of Renesas Electronics products or technical information described in this document. No license, express, implied or otherwise, is granted hereby under any patents, copyrights or other intellectual property rights of Renesas Electronics or others.
- 3. You should not alter, modify, copy, or otherwise misappropriate any Renesas Electronics product, whether in whole or in part.
- 4. Descriptions of circuits, software and other related information in this document are provided only to illustrate the operation of semiconductor products and application examples. You are fully responsible for the incorporation of these circuits, software, and information in the design of your equipment. Renesas Electronics assumes no responsibility for any losses incurred by you or third parties arising from the use of these circuits, software, or information.
- 5. When exporting the products or technology described in this document, you should comply with the applicable export control laws and regulations and follow the procedures required by such laws and regulations. You should not use Renesas Electronics products or the technology described in this document for any purpose relating to military applications or use by the military, including but not limited to the development of weapons of mass destruction. Renesas Electronics products and technology may not be used for or incorporated into any products or systems whose manufacture, use, or sale is prohibited under any applicable domestic or foreign laws or regulations.
- 6. Renesas Electronics has used reasonable care in preparing the information included in this document, but Renesas Electronics does not warrant that such information is error free. Renesas Electronics assumes no liability whatsoever for any damages incurred by you resulting from errors in or omissions from the information included herein.
- 7. Renesas Electronics products are classified according to the following three quality grades: "Standard", "High Quality", and "Specific". The recommended applications for each Renesas Electronics product depends on the product's quality grade, as indicated below. You must check the quality grade of Renesas Electronics product before using it in a particular application. You may not use any Renesas Electronics product for any application categorized as "Specific" without the prior written consent of Renesas Electronics. Further, you may not use any Renesas Electronics product deviate the one of the in any way liable for any damages or losses incurred by you or third parties arising from the use of any Renesas Electronics product for an application categorized as "Specific" or which the product is not intended where you have failed to obtain the prior written consent of Renesas Electronics is not intended where you have failed to obtain the prior written consent of Renesas Electronics. The recommender application to rease of Renesas Electronics and any Renesas Electronics product for an application categorized as "Specific" or the which the product is not intended where you have failed to obtain the prior written consent of Renesas Electronics. The quality grade of each Renesas Electronics product is "Standard" unless otherwise expressly specified in a Renesas Electronics data sheets or data books, etc.
- "Standard": Computers; office equipment; communications equipment; test and measurement equipment; audio and visual equipment; home electronic appliances; machine tools personal electronic equipment; and industrial robots.
- "High Quality": Transportation equipment (automobiles, trains, ships, etc.); traffic control systems; anti-disaster systems; anti-crime systems; safety equipment; and medical equipment not specifically designed for life support.
- "Specific": Aircraft; aerospace equipment; submersible repeaters; nuclear reactor control systems; medical equipment or systems for life support (e.g. artificial life support devices or systems), surgical implantations. or healthcare intervention (e.g. excision, etc.), and any other apolications or purposes that pose a direct threat to human life.
- 8. You should use the Renesas Electronics products described in this document within the range specified by Renesas Electronics, especially with respect to the maximum rating, operating supply voltage range, movement power voltage range, heat radiation characteristics, installation and other product characteristics. Renesas Electronics shall have no liability for malfunctions or damages arising out of the use of Renesas Electronics products beyond such specified ranges.
- 9. Although Renesas Electronics endeavors to improve the quality and reliability of its products, semiconductor products have specific characteristics such as the occurrence of failure at a certain rate and malfunctions under certain use conditions. Further, Renesas Electronics products are not subject to radiation resistance design. Please be sure to implement safety measures to guard them against the possibility of physical injury, and injury or damage caused by fire in the event of the failure of a Renesas Electronics product, such as safety design for hardware and software including but not limited to redundancy, fire control and malfunction prevention, appropriate treatment for aging degradation or any other appropriate measures. Because the evaluation of microcomputer software alone is very difficult, please evaluate the safety of the final products or system manufactured by you.
- 10. Please contact a Renesas Electronics sales office for details as to environmental matters such as the environmental compatibility of each Renesas Electronics product. Please use Renesas Electronics products in compliance with all applicable laws and regulations that regulate the inclusion or use of controlled substances, including without limitation, the EU RoHS Directive. Renesas Electronics assumes no liability for damages or losses occurring as a result of your noncompliance with applicable laws and regulations.
- 11. This document may not be reproduced or duplicated, in any form, in whole or in part, without prior written consent of Renesas Electronics.
- 12. Please contact a Renesas Electronics sales office if you have any questions regarding the information contained in this document or Renesas Electronics products, or if you have any other inquiries.
- (Note 1) "Renesas Electronics" as used in this document means Renesas Electronics Corporation and also includes its majority-owned subsidiaries.
- (Note 2) "Renesas Electronics product(s)" means any product developed or manufactured by or for Renesas Electronics.
